

GOOD NEWS FOR GUIDES WITH OUTSTANDING CERTIFICATES

2019-02-15, Cathsseta Office (Johannesburg)

Cathsseta has announced the following initiatives to assist with the issuing of certificates:

- 1) A special historic learner project will be implemented from 1-31 March 2019 to enable upload and achievement (allocation of C-numbers) of learners that weren't timeously added prior to the introduction of the new system in March 2017.
- 2) Cathsseta will follow up with providers who haven't submitted all the required documents and thus delaying certification.

Kindly assist the providers with a prompt response when you are requested for information or documents.

Let us not miss this window of opportunity as it will only be available for that one month!!!

For others who already have a Certificate number (C-number) but were never issued a certificate:

- 1) Check if the certificate is not still with the training provider.
- 2) If not, let the NFTGA know and we will request an in-house certificate from Cathsseta.

The Cathsseta in-house certificate is exactly the same as the one with all the fancy background printed by the printers ... it will enable you to register/re-register according to the qualification / programme you completed.

Cathsseta representatives: Dimpho Phunwayo and Priscilla (Bobo) Mahlangu.
