JUST RECEIVED FROM SANPARKS:

Minimum Bus Charge at Cape Point Gate in Table Mountain National Park

As of 25th January 2019 the Table Mountain National Park has removed the minimum bus charge from the parks tariff sheet. The Minimum bus charge was very cumbersome to implement at the gate with the new differential tariffs and created confusion upon application when vehicles transported both local and international clients. The process will now be as at all other national park gates that you pay for the number of guests you have in the vehicle irrespective of the size of vehicle. This change should impact very few if any organisations moving forward.

We hope to communicate with you in February on the new online ticketing system and the time lines for implementation.
